### Contemporary art

Adilah Bundakji is a contemporary Islamic artist and designer whose works favour

diverse threads and mixed media on fabrics that result in pieces of exquisite detail and lustre that

invite participation. She innovates upon traditional concepts of embroidery with contemporary treatments, drawing inspiration from Quranic verses and motivated by the 'Kiswah' cloth that ordains the Kaaba in Mecca. All pieces are handmade and hand stitched. This exhibition is being held at Mondo Arte Gallery from 5th to 25th July in Mall of the Emirates.
